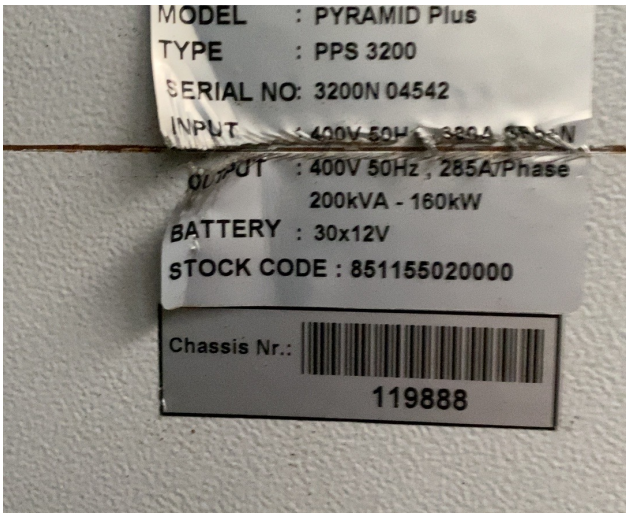
INFORM / PYRAMID PLUS

PPS 3200

200 kVA / 160 kW INDUSTRIAL ONLINE UPS

ACTUAL UNIT



ACTUAL NAMEPLATE

inform ON-LINE UPS

MODEL	PYRAMID Plus
TYPE	PPS 3200
SERIAL NO.	3200N04542
INPUT	400 V 50 Hz | 336 A | 3Ph+N
OUTPUT	400 V 50 Hz | 285 A/phase
RATING	200 kVA - 160 kW
BATTERY	30 x 12 V
STOCK CODE	851155020000
CHASSIS NO.	119888

Digital transcription of the photographed nameplate

SYSTEM DETAIL

BRAND	INFORM
MODEL	Pyramid Plus PPS 3200
CAPACITY	200 kVA / 160 kW
TOPOLOGY	Online double conversion
INPUT	400 V, 50 Hz, 3Ph+N
OUTPUT	400 V, 50 Hz, 3-phase
BATTERY DC	30 x 12 V nominal
SERIAL NO.	3200N04542
CHASSIS NO.	119888

INFORM / PYRAMID PLUS

PPS 3200

200 kVA / 160 kW INDUSTRIAL ONLINE UPS

DESIGN

The INFORM Pyramid Plus uses a transformer-based industrial design with a built-in output isolation transformer. This provides galvanic isolation between the inverter and the protected load.

WHY THIS DESIGN

These are heavy-duty industrial UPS systems. Their main value is electrical isolation, robustness, overload tolerance and serviceability.

BEST SUITED INDUSTRIES

- Industrial manufacturing and process control
- Medical and laboratory environments
- Mining and mineral processing
- Automation and critical control systems

KEY FEATURES

- Online double-conversion operation
- Three-phase 400 V input and output
- Built-in output isolation transformer
- Static bypass and maintenance bypass
- LCD/LED monitoring and system status display
- Designed for industrial loads and demanding operating environments
